1.POST /todos

Todo#1 added

The screenshot displays the Swagger UI for a POST endpoint `/todos`. The interface is divided into several sections: a top bar with the method `POST` and the endpoint `/todos` (labeled 'Add Todo'); a 'Parameters' section indicating 'No parameters'; a 'Request body' section marked as 'required' containing a JSON object `{ "title": "Complete FastAPI Lab" }`; and a 'Response' section showing a `200` status code. The response body is a JSON object `{ "id": 1, "title": "Complete FastAPI Lab", "completed": false }`, and the response headers include `content-length: 57`, `content-type: application/json`, `date: Thu, 09 Jul 2026 19:35:17 GMT`, and `server: uvicorn`.
